

Project Title	Location	PDF Theme	PDF Theme objective	Summary of Project Details	Project Lead Team	Delivery Options	Council or Borough	Funding Source	Ref	Comments
Café/Visitor Centre	BIP and Seventy Acres Lake	Visitors	Visitor Facilities	Feasibility of café locations starting at FG or Phase 2 of Fishers Green development proposals - Visitor centre/café, new toilets etc. Business plan to be developed after Phase 1 replacement of current BIP.	Projects	Delivery planned within 5 years	Epping Forest District	Not yet known		No development progress and not shovel ready
Improve entrance to Bow Creek	Bow Creek	Visitors	Access to the Park	Includes proposals for better link from Cannin Town Station and improvemnets for Youth and Schools team to run more education programmes on this site.	PDF	No Delivery Plan - Aspirational	Newham London Borough	Not yet known		No development progress and not shovel ready
Delive strategy for Carthagenia including outdoor informal camping	Carthagenia	Landscape and Heritage	Recreation and Leisure	A landscape strategy developed and delivered for the Carthagenia area. A range of improvements to be delivered around access, leisure and recreation.	Rangers	No Delivery Plan - Aspiratinoal	Epping Forest District and Broxbourne District	Potentially capital Funding from Authority		Some work completed by Alex Farris. Some drawings but no narrative or project proposal available. Documents at: - \\mh-fslv\FS03\Projects\Biodiversity\LVRPA sites and facilities\Sites\Carthagenia
Table on the marshes	Coppermill Fields	Visitors	Recreation and Leis	Project group established 2020 after significant damage caused by vandalism and bbqs during lockdown. Important focal point for visitors and very visible. Public funding strategy currently being put in place. it would be supportive of park if we could provide some funding contribution. repairs - £1,000	Ranger Team	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Feasibility study into improvements to EIDB	East India Dock Basin	Biodiversity	Fauna and Flora	Range of studies undertaken to understand options for improvements at EIDB	Projects	Delivery planned within 5 years	Tower Hamlets London Borough	Not yet known		Potential for 2021/22 if funding becomes available
Dock habitat enhancement	East India Dock Basin	Biodiversity	Fauna and Flora	Removal silt, re-profile north bank install floating reed beds/ interpretation Desilting of Dock Basin to improve habitat quality and visitor experience delivering the CMP for the site	Projects	No Delivery Plan - Aspirational	Tower Hamlets London Borough	Not yet known		No development progress and not shovel ready
Glen Faba Gateway - habitat restoration	Glen Faba	Biodiversity	Fauna and Flora	Lake edge habitat enhancements including scrub removal and establishment of emergent vegetation	Biodiversity	Delivery planned within 5 years	Epping Forest District			No development progress and not shovel ready
Route provision across Hackney Marshes	Hackney Marshes	Visitors	Routes	Rout improvements and linking on to Hackney Marshes	PDF	No Delivery Plan - Aspiratinoal	Hackney London Borough	Not yet known		No development progress and not shovel ready
HVM - VeloPark	Lee Valley VeloPark	Sport and Recreation	Visitor Facilities	Works to Velo Plaza to protect the venue from HV attack.	APMD	Delivery Planned this year	Newham London Borough	Capital		No development progress and not shovel ready
Path improvements on Walthamstow Marshes	Leyton Marsh	Visitors	Recreation and Leis	Path construction (significant erosion to surface cutting across from Kings Head Bridge to path behind Ice Centre) potentially new lighting and safety features.	Ranger Team	ASAP	Waltham Forest London Borough	Not yet known		Potential for 2021/22 if funding allocated
Water Abstraction	Middlesex Filter Beds	Environment	Water	Instillation of sluice and pipe linking to river, Installation of permanent solution to water supply issues on the Filter Beds	Rangers	Delivery within 3 years?	Hackney London Borough	Not yet known		Potential for 2021/22 if funding allocated
Visitor infrastructure	River Lee Country Park	Visitors	Routes	Improvements to the network of footpaths and redevelopment of the Pindar Toilet block	Rangers	Delivery planned within 3 years	Epping Forest District and Broxbourne District	Not yet known		No development progress and not shovel ready
Outdoor Gyms	River Lee Country Park	Sport and Recreation	Health	We have had previous conversations with the Great Outdoor Gym Company about installation of one, maybe two outdoor gyms in the Park. A couple of sites have been identified, including a strip of land at the back of the WWC and a piece of land on Tottenham Marshes. The ambition is to create a network of physical activity stations through the Park, to help support our strategic aim of increasing usage of outdoor spaces, for the benefit of health and mental well being. The outdoor gyms can not only be used by individuals on a day to day basis, but we would plan to activate these spaces with 'activators' working with targeted groups in most need. There would still need to be a lot of consultation with Authority	Active Communities	No Delivery Plan - Aspirational, although the current climate suggests that this could be high priority.	Broxbourne District	Not yet known		No development progress and not shovel ready
Rye House Gate House	Rye House	Visitors	Access to the Park	Working with Historic England to enhance the heritage interest and visitor experience	PDF	No Delivery Plan - Aspirational	East Hertfordshire District	Not yet known		No development progress and not shovel ready
Interpretation	South Park	Visitors	Learning	19 Boards and structures order raised text and art works being produced, wating for Coms assined person to sort scanning Bow Creek,Walthamstow Marshes, Middlesex Filter Beds, Gun Powder Park	Rangers	No Delivery Plan - Aspiratinoal	Newham London Borough, Tower Hamlets London Borough, Hackney Lonton Borough Walthamstow London Borough.	Not yet known		Potential for 2021/22 if funding allocated
Floating reedbeds	South Park	Biodiversity	Fauna and Flora	Installation of floating reedbeds in the lower lea	Biodiversity	No Delivery Plan - Aspiratinoal	Newham London Borough, Tower Hamlets London Borough, Hackney Lonton Borough Walthamstow London Borough.	Not yet known		No development progress and not shovel ready
Green Waste Compactor for South of Park	South Park	Environment	Waste	Feasibility of Green Waste compactor in South of Park	Ranger Team	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Spitalbrook - creation of a wetland park - build on outline work in 2013 linked to education and improved access with 'gateway' from Broxbourn station.	Spitalbrook	Visitors	Access to the Park	Creation of a Wetland Park	PDF	No Delivery Plan - Aspirational	Broxbourne District	Not yet known		No development progress and not shovel ready

Site improvements for events	Three Mills Green	Visitors	Visitor Facilities	Additional improvements to the infrastructure of the site, will support potential income increases for event hires. A cost effective solution to creating a more durable surface at the entrance to the site, to provide vehicle access for event infrastructure. The creation of mains water points on site to support event infrastructure. Additional improvements to the infrastructure of the site, will support potential income increases. Some larger events companies are currently reluctant to hire the site due to the amount of infrastructure they need to bring on site.	Events Team	No Delivery Plan - Aspiratinoal	Newham London Borough	Not yet known		No development progress and not shovel ready
Re-turfing of circle area on green and roll	Three Mills Green	Environment	Fauna and Flora	Existing grass is quite sparse and thin, and is exposed to heavy trampling, wet conditions etc. Also takes longer to recover after the annual music event. DH Not convinced, will get damaged again with more music events – poss needs another option/centrally funded as due to events happening.	Ranger Team	ASAP	Newham London Borough	Not yet known		No development progress and not shovel ready
Aeration of soil	Three Mills Green	Environment	Fauna and Flora	Pooling of water in grass area causes some patches to be waterlogged. Aeration reduces compaction and helps drain the water – DH Again Rev rather than project?	Ranger Team	ASAP	Newham London Borough	Not yet known		No development progress and not shovel ready
Restore meadows	Three Mills Green	Biodiversity	Fauna and Flora	Rotavating and reseeded. Mound meadows look a bit neglected, and could do with some colour.	Ranger Team	ASAP	Newham London Borough	Not yet known		No development progress and not shovel ready
Sculpture trail	Tottenham Marshes	Community	Art	Linking three sites and Stonebridge hub interactive sculpture	Rangers	Delivery planned within 3 years	Haringey London Borough	Not yet known		Potential for 2021/22 if funding allocated
Restoration of grassland at Turnford	Turnford Marsh	Biodiversity	Fauna and Flora	This a part of an on-going project on this Local Wildlife Site on the west side of River Lee Country Park. It is proposed that selected scrub be removed to retain and regain areas of grassland, a Lee Valley BAP priority habitat.	Biodiversity	Delivery planned within 5 years	Broxbourne District	Not yet known		No development progress and not shovel ready
Habitat restoration	Walthamstow Marshes	Biodiversity	Fauna and Flora	Railway Triangles, scrub removal scrapes, ditches and create ponds, planting	Rangers	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		Potential for 2021/22 if funding allocated
Steps/kissing gate	Walthamstow Marshes	Visitors	Recreation and Leis	Entrance from Aqueduct Pathway leads onto Lammas Meadow. Currently tarmacked slope allowing and encouraging unrestricted movement of vehicles and cyclists on to the most species rich area if meadow, causing extensive trampling and erosion of soils. It would also allow better more visible signage to be erected	Ranger Team	ASAP	Waltham Forest London Borough	Not yet known		Potential for 2021/22 if funding allocated
SSSI Boundary Fencing / gates with Leyton N	Walthamstow Marshes	Environment	Fauna and Flora	To establish a more recognisable de-lineation between Walthamstow Marshes SSSI and Leyton Marsh for visitors to better identify where the nature reserve begins and ends and where certain restrictions on activities apply	Ranger Team	ASAP	Waltham Forest London Borough	Not yet known		Potential for 2021/22 if funding allocated
Ditch Management	Walthamstow Marshes	Biodiversity	Water	Ditch management for Water Voles – Walthamstow Marshes / Rammey Marsh (these are on-going works)	Biodiversity	ASAP	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Cycle ways across the Marshes	Walthamstow Marshes	Visitors	Routes	Cycle routes across Walthamstow Marshes	PDF	No Delivery Plan - Aspirational	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Protection of floodplain habitat on Walthamstow marshes	Walthamstow Marshes	Environment	Water	Protection of floodplain habitat on Walthamstow marshes	PDF	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Dog walking survey and/or management stra	Walthamstow Marshes	Visitors	Recreation and Leis	Lea Bridge Road Area Sites - (1.8 million visitations this year and many had 1 or more dogs. This is having an enormous impact on the wildlife(particularly bird life), other users and staff time and resources. A coordinated strategy for the wider area would help build foundations for a better, safer environment and enhanced experience for dog walkers. This would help park staff to better protect their sites, their wildlife and other users.) DH - Not one for this list possibly but worth looking at park wide as we have similar issues and plans elsewhere (ie traffic light system near WDC)	Ranger Team	ASAP	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Grassland Restoration	WaterWorks	Biodiversity	Fauna and Flora	grassland restoration at WaterWorks Fields as per the NVC (although we may want to put this on hold till after the management plan is agreed)	Biodiversity	ASAP	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Enhancement of filter beds and reserve at the WW centre	Waterworks	Biodiversity	Fauna and Flora	Ongoing will be developed from Rangers Management Plans	PDF	No Delivery Plan - Aspirational	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Site improvements for events	Waterworks	Visitors	Visitor Facilities	Additional improvements to the infrastructure of the site, will support potential income increases for event hires. A cost effective solution to crossing the culvert that dissects the main site making it difficult transport large event infrastructure. A more suitable and durable surface solution that allows vehicles to enter the site via the main entrance for event infrastructure. Current site restrictions are hinder potential large scale events and additional income through event hires.	Rangers	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Interactive Interpretation	Waterworks	Visitors	Learning	Time line and species id for Hide, Various app education points, NFC tags/ Qr codes, online content development.	Rangers	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Enhancement of filter beds and reserve at the WW centre	Waterworks	Biodiversity	Fauna and Flora	Ongoing details to come from site Management Plan	PDF	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready

River restoration project	WaterWorks	Biodiversity	Fauna and Flora	WaterWorks Fields – permissions would be required – also issues with continued heavy use	Biodiversity	ASAP	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Kingfisher Bank	WaterWorks	Biodiversity	Fauna and Flora	New Kingfisher Bank at WaterWorks (on the bed adjacent to the open water) – was there anything else from the mitigation report worked up by LDA for the Ice Centre environs, this report never really went anywhere and the wider schemes were not included in the submission in the end?	Biodiversity	ASAP	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Dry Stone Wall	WaterWorks Nature Reserve	Environment	Fauna and Flora	Dry stone wall for the wildlife garden as an example of another wildlife friendly boundary feature like the dead hedge. It would also provide a better demarcation of the wildlife garden and could have a bench incorporated into it. we have had a site visit with a waller and he has expressed interest. We were hoping if we provided materials he would lead courses for paying customers and build the wall in the process of this although the impression he gave was that he would rather have a more reliable fee. We were considering a knee or hip height wall to save on materials as opposed to a full height/ shoulder height wall, this would also not block lines of sight as much. He did send some material costings to Ges I believe	Ranger Team	No Delivery Plan - Aspiratinoal	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Water Level Studies	Walthamstow Marshes	Biodiversity	Water	Water Level investigations on Walthamstow Marshes feeding into the improvement of the SSSI	Rangers	ASAP	Waltham Forest London Borough	Not yet known		No development progress and not shovel ready
Pond	Myddelton House Gardens	Landscape and Heritage	Heritage	Re lining and re planting of pond at Myddelton House Gardens	Gardens	Delivery planned within 3 years	Enfield London Borough	Repairs and Renewals		Funding either in place or being developed up delivery in progress
Access improvements	Britannia Meadows	Visitors	Access to the Park	Install 2 new benches and 1 dog bin	Rangers	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Access improvements	Britannia Meadows	Visitors	Access to the Park	Install new pedestrian and vehicle access linking housing estate and Trinity Lane approx. 480m	Rangers	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Conversion of pill box - Creation of a bat hibernacula on Nazeing Green Lane	Nazeing	Biodiversity	Fauna and Flora	Creation of a bat hibernacula - The disused WWII pill boxes of the Lee valley have been successfully converted into bat hibernacula, providing winter roosts for Brown Long-eared Bats and Natterers Bats. Most of the boxes have already been converted however there is a remaining box that provides an excellent potential hibernation site.	Biodiversity	Delivery planned within 5 years	Epping Forest District	S106	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress
Corral	Britannia Meadows	Environment	Production	Install Corral on Britannia Meadows	Rangers	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Fencing	Britannia Meadows	Environment	Production	Install new fencing on Britannia Meadows approx. 1100m (some materials could be re-used). This will enable grazing and keep pedestrians and dogs from accessing the grazing compartments	Rangers	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Fisheries management	Bowyers water	Sport and Recreation	Sport	Fishing swim improvements on Bowyers Water and North Met Pits	Fisheries	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Footpath enhancement along southern end of Bowyers Water	Bowyers water	Visitors	Access to the Park	Path is in poor condition and may see an increased footfall due to the development	Rangers	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Grassland Restoration	Rammey Marsh	Biodiversity	Fauna and Flora	Management of scrub encroaching onto this grassland. Surveys of this area have shown its importance for a range of invertebrates, some of national and regional conservation concern.	Rangers	Delivery planned within 5 years	Enfield London Borough	S106	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress
Gravel Pit lake edge works at Ashley Pit	Turnford Marsh	Environment	Water	As with many of the gravel pits, the banks of Ashley Pit have become heavily vegetated and stands of reed and other emergent vegetation are being lost. This project seeks to selectively remove bankside trees to increase light levels and encourage the vegetation to grow.	Biodiversity	Delivery planned within 5 years	Broxbourne District	S106	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress
Habitat enhancements for breeding waders	Hall Marsh	Biodiversity	Fauna and Flora	Improvements to the scrape for breeding waders - Early successional habitats provide the best habitat for breeding waders, as the site has matured it has become increasingly vegetated and the habitat quality deteriorated. This project will focus on reestablishing islands for breeding waders, exposing muddy margins perfect for feeding waders and desilting sluices to enable effective site management. Crassula is known to be present on site and the project design will need to factor in biosecurity measures to prevent spread across the site and onto other sites.	Biodiversity	Delivery planned within 5 years	Epping Forest District	S106	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress

Habitat improvements to the R Lynch means the biodiversity offsetting scheme submitted by the County Council (as developer) to the County Council and approved on 26 September 2019 relating to works to restore the River Lynch at Dobbs Weir, Hoddesdon to a naturally functioning chalk stream and annexed to this Deed at Schedule 1	Spitalbrook	Biodiversity	Fauna and Flora	Baseline surveys to be undertaken during the period April – August 2021, to be procured by January 2021 <ul style="list-style-type: none"> EA in house surveys where possible to include water quality, Fish, invert and macrophyte surveys River Corridor survey (to include in-channel features and INNS) – LVRPA to procure Protected species survey – LVRPA to procure Occasional soil samples to check for contamination – could be possible to use some of the material to use in-channel – LVRPA to procure (could possibly do this prior to April 2021 although probably more cost effective to procure alongside the other surveys) Project design (September – November 2021)	Biodiversity	Baseline surveys to be undertaken during the period April – August 2021, to be procured by January 2021 Project design (September – November 2021) Detailed project design and EA permit application submitted by November 2021 On-site works including tree works and in-channel features (January – March 2022)	Broxbourne District	S106		Funding either in place or being developed up delivery in progress
Improvements for breeding waders and Water Voles	Patty Pool Mead	Biodiversity	Fauna and Flora	Patty Pool Mead has the potential to become a good side for wading birds however works need to be undertaken to improve the suitability. This includes the opening up of small pools and scrapes that will provide invertebrate-rich mud on which waders can feed. The ditches that surround the area were once home to Water Voles and it is hoped that by opening up these ditches and improving the habitat quality they will once again be found on site.	Biodiversity	Delivery planned within 5 years	Epping Forest District	S106	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress
Installation of water supply	Britannia Meadows	Environment	Production	Water supply would also allow the meadows to be grazed by cattle which will greatly enhance the ecological value of the grassland.	Rangers	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Lake edge management	Britannia Lake	Environment	Water	Habitat works removing trees for the banks of the lake on Britannia Meadows to increase the area and quality of the reeded fringes of the lake	Biodiversity	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Restoration of grassland at Turnford	Turnford Marsh	Biodiversity	Fauna and Flora	This a part of an on-going project on this Local Wildlife Site on the west side of River Lee Country Park. It is proposed that selected scrub be removed to retain and regain areas of grassland, a Lee Valley BAP priority habitat.	Biodiversity	Delivery planned within 5 years	Broxbourne District	National Grid pot	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress
Restoration of Normans Pond	Fishers Green	Biodiversity	Fauna and Flora	This pond is part of a complex of 3 man-made ponds and is home to a population of Great Crested Newts. The other ponds here have been restored and now the final and largest pond is in need of restoration. Consideration will need to be given to GCN licencing and biosecurity issues as Crassula is present on site.	Biodiversity	Delivery planned within 5 years	Epping Forest District	S106	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress
Scrub Clearance Cheshunt Marsh	Cheshunt Marsh	Biodiversity	Fauna and Flora	Scrub clearance and habitat management within the Turnford and Cheshunt Pits SSSI at Cheshunt Marsh (north site)	Biodiversity	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Water safety signage	Britannia Lake and Bowyers Water	Community	Health	Install water safety signage at Bowyers Water and Britannia Lake	Rangers	Delivery planned within 3 years	Broxbourne District	S106	LVRPA Ref - 15.022 Area 6	Funding either in place or being developed up delivery in progress
Wildfowl flight routes	Holyfield Lake	Biodiversity	Fauna and Flora	Work has already been undertaken on the adjacent Langridge Scrape to open up the shoreline to create duck loafing habitat and provide refuge for birds temporarily disturbed by sailing on Holyfield Lake. This project seeks to improve connectivity between the two lakes by the selective removal of trees on the shore of Holyfield lake.	Biodiversity	Delivery planned within 5 years	Epping Forest District	S106	LVRPA ref - 12.154 agreement dated 2/9/13	Funding either in place or being developed up delivery in progress
Awareness raising events on the West Side	River Lee Country Park	Community	Learning	<ul style="list-style-type: none"> Engagement projects to raise awareness of the SPA and its important features this could include: <ul style="list-style-type: none"> Pop-up events such as Bittern Roost Watches, winter duck walks etc. Guided walks Children's activities engagement with dog walkers in the area to raise awareness of their potential impacts and provide guidance on appropriate behaviour 	Rangers	Delivery planned within 3 years	Epping Forest District and Broxbourne District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Creation of gravel Island	Seventy Acres Lake	Biodiversity	Fauna and Flora	<ul style="list-style-type: none"> Removal of trees from existing island Lowering of island levels Installation of predator fence Installation of weed membrane Installation of gravel layer 	Biodiversity	Delivery planned within 3 years	Epping Forest District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress

Goosefield Restoration Wet grassland for breeding waders	Goosefield	Biodiversity	Fauna and Flora	<ul style="list-style-type: none"> Feasibility study and project design work Management of Crassula Habitat restoration project including the installation of water management features 	Biodiversity	Delivery planned within 3 years	Epping Forest District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Habitat enhancements for Water Voles	Hall Marsh	Biodiversity	Fauna and Flora	Removal of trees which are overshadowing the ditch to enable development of emergent vegetation to enhance habitat for the existing Water Vole population	Biodiversity	Delivery planned within 3 years	Epping Forest District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Interpretation	River Lee Country Park	Community	Learning	<ul style="list-style-type: none"> Installation of a bespoke sculpture to engage with visitors and educate them about the important species in the area, this will complement the existing sculpture trail Design of insert into existing LVRPA welcome panels to explain importance of area to visitors 	Rangers	Delivery planned within 3 years	Epping Forest District and Broxbourne District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Lake edge management	River Lee Country Park	Environment	Water	<ul style="list-style-type: none"> Selected tree removal from margins of lakes to enhance marginal vegetation This has the potential to include Police Pit which is under the ownership of Canal and River Trust 	Biodiversity	Delivery planned within 3 years	Epping Forest District and Broxbourne District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Litter Management	River Lee Country Park	Environment	Waste	Contribution to increase litter management by LVRPA term GM contractors	Rangers	Delivery planned within 3 years	Epping Forest District and Broxbourne District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Monitoring	River Lee Country Park	Biodiversity	Fauna and Flora	<p>Establish regular programme of wildlife surveys to augment established WeBs counts and/or targeted at specific mitigation.</p> <p>Visitor Surveys for the River Lee Country Park– to be repeated at regular intervals during construction programme</p>	Biodiversity	Delivery planned within 3 years	Epping Forest District and Broxbourne District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
New homeowner pack	River Lee Country Park	Community	Health	Development of an information pack for new homeowners showcasing the open space and biodiversity provision on site, the adjacent SPA and associated features and guidance on potential impacts and appropriate behaviour	Biodiversity	Delivery planned within 3 years	Epping Forest District and Broxbourne District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Otter holt installation	Hall Marsh	Biodiversity	Fauna and Flora	Installation of an Otter Holt to provide a safe lying-up area	Biodiversity	Delivery planned within 3 years	Epping Forest District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
Reedbed Creation	Seventy Acres Lake	Environment	Water	<ul style="list-style-type: none"> Removal of trees from existing island Lowering of island levels Installation of temporary fencing Reed planting Creation of 0.2ha of reedbed 	Biodiversity	Delivery planned within 3 years	Epping Forest District	S106 from Cheshunt Lakeside (£750K) Poss by late 2021	LVRPA Ref - 18.055 LPA Ref 07/18/04 61/0	Funding either in place or being developed up delivery in progress
