Executive Quarterly Monitoring	CD (S&L)	The LSC contract continues to operate well with the phase 1 of investment projects underway and are due for completion in the third quarter of this financial year. The H&S and GM contracts continues to perform well in the main.	New LSC has been in place since April 1st 2022 and has been operating well with first half year results being generally positive. The first 6 months has been for the Authority to support the change in operation and monitoring etc. has been focused on doing that along with finalising all the post-handover requirements for land matters. The GM contract continues to perform well and the new H&S contract has been fully transferred with new support platforms either in place or shortly due for launch.

SR2.4	Contractor stability affected by external influences or national/international conditions prevailing at the time	CD/HoF	9	8	72		Reports to SMT and Members Financial/Legal/Risk Implications fully appraised. Financial Appraisal of schemes in accordance with prudential code.	M Exec Monthly M Scrutiny 1/4ly	8	8	64		>	Treat	Quarterly Contract monitoring.	Executive Quarterly Monitoring	CD (S&L)	Ongoing review of major projects, in particular the Ice Centre (post handover snagging works) through the Authority's cost consultants regarding material costs and any potential delays in supply. Regarding the LSC, utilities were protected cost wise until September 2022. GLL were unable to secure the same prices as the Authority from October 2022, and there was a significant price increase up to March. From April GLL's prices reduced closer to the Authority tariff. The 23/24 budget is sufficient for current levels of consumption at known prices to September 2023 and then at the prices forecast by Laser from October, with a contingency for additional price increases. Consumption has been reduced through programme changes, more efficient management and the initial LED investment at the VeloPark. Further consumption reductions from LEDs at HTC, LVAC, WWC and the Riding Centre will further mitigate this risk.	Ongoing review of major projects, in particular the Ice Centre through the Authority's cost consultants regarding material costs and any potential delays in supply. In general, communication with contractors remains strong and proactive to identify potential issues with review of all current contracts to confirm stability of each company. Regarding the LSC, utilities were protected cost wise until October 2022 though meetings continue with GLL and the suppliers to ascertain the full impact on the budgets over the next year. The impact of the utilities pricing will continue to be significant and without government help there is an ongoing fundamental review of programming etc. with GLL. There is also likely to be a significant impact for the Authority's own utility costs which needs to be considered.
SR2.5	Insufficient contractors tendering for contracts	CD	4	5	20		Reports to SMT Financial/Legal/Risk Implications fully appraised. Appraisal of procurement process.	SMT Monthly & 1/4ly Reports M Exec 1/4ly M Authority Annual Budget IA Audit Plan	5	3	15		>	Treat	Review of Procurement process Tender Evaluation Award of Contract	31/03/2023	CD	The Procurement department will continue to revise the Authority's procurement processes and documents to ensure Regulations are followed and best practice is in place. A closer working relationship with the Authority's Legal Department has helped with parts of the process. An emphasis on completing benchmarking and market research has been put on project leads.	The Authority continues to get the necessary interest required for its tenders. The revised process implemented last year has helped as the pre work required prior to tender is more robust and clear on what the requirements are making it easier for interested parties and the addition of a new Procurement Officer has ensured that the tender processes are followed.
SR2.6	Major equipment or other failure at one or more venues resulting in temporary/permanent cessation of operations	CD	9	6	54		Reports to SMT Financial/Legal/Risk Implications fully appraised. SMT Monthly & 1/4ly Reports M Exec 1/4ly M Authority Annual Budget IA Audit Plan	5	4	20		>	Treat	Ongoing Monitoring by Authority Continual review of LSC contractor's financial position	On-going	CD	Updated KPI/PI's to be implemented this year. Performance monitoring process now in place with Quality Manuals to be produced for each venue. Live Issues & Actions tracker being used by department leads and shared/discussed with GLL on a monthly basis. Any major issues are flagged and raised at monthly AR/CR meetings.	Current list of revisions to PI specification being considered in preparation for end of first full year of the LSC. Processes for monitoring the contract are in place but the new ways of working will take time to bed in before they become less likely to cause any major issues. Early signs of risk is low and GLL's operation continues to progress well. Increased monitoring and actions and issues trackers now in place and legal letter prepared for GLL in relation to full implementation of the contract administration process from April 1st 2023.
SR2.8	Management of Facilities Contracts & failure to maintain assets to a good H&S and operational standard	DCEO	9	4	36		Advice and support APMD plus external contractors. LED lights continue to be installed across venues and the new fitness centre at the LVAC and riding simulator at the LVRC are currently being delivered. Continued investment in income generation and cost reduction are an important feature of the 2023-26 Business Plan.	Levy increased by 9% for 2023/24, the maximum amount that Members felt they were able to, principally to address the financial impact of utility prices. Long term trend anticipated to reduce requirement on levy for funding. Income generating, and cost saving investment is a mid- to long-term component of the Authority's business strategy, which will help to reduce pressure on the levy.
